

EPA Brownfields Program Assistance to the State of Oregon

1-800-424-4372

February 2010

Since 1995, the EPA Brownfields Program has funded grants worth almost \$88.3 Million in Region 10. The grants awarded in Oregon since 1995 include: 22 Assessment, 15 Cleanup, 5 Revolving Loan Fund, 3 Job Training Grant and 9 Response Program Grants. Oregon communities listed below were selected to receive \$2.5 Million in 2009 for a total of \$23.3 Million in Oregon Brownfields grant funding to date.

Response Program Grants 2009

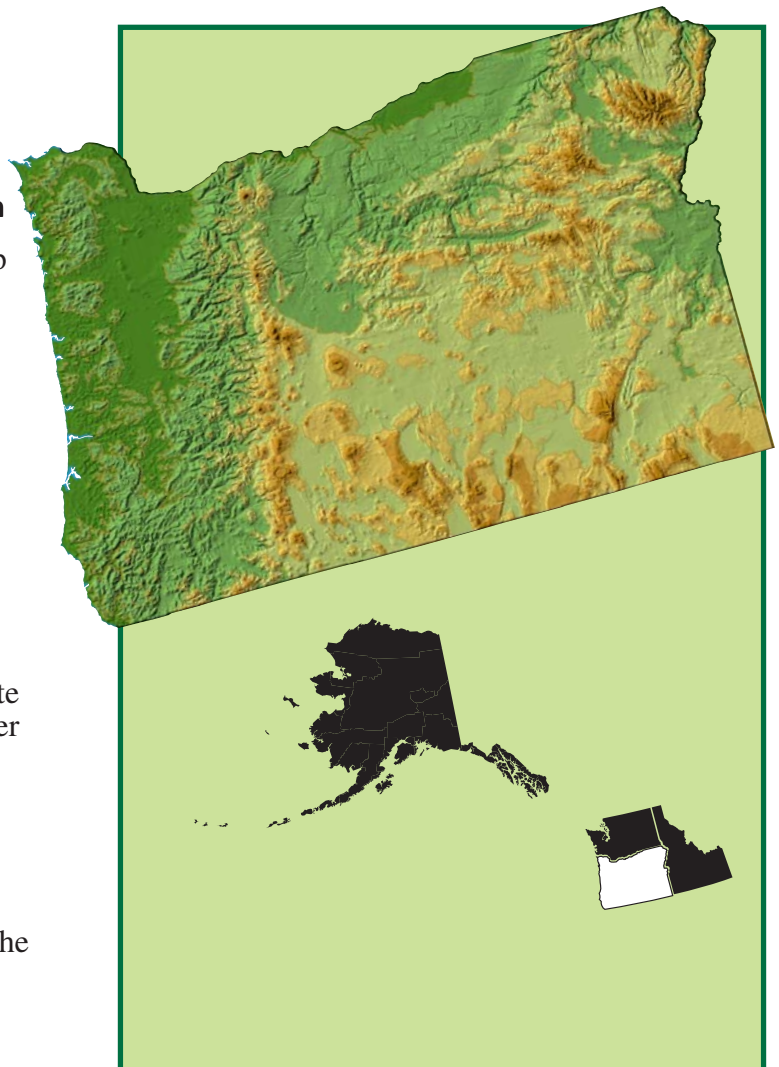

- Oregon Department of Environmental Quality
- Confederated Tribes of Coos, Lower Umpqua, and Siuslaw

State & Tribal Response Program

- EPA provides funds to States and Tribes to develop and/or enhance their response program which includes supporting efforts to build capacity for Voluntary Cleanup Programs (VCP), develop a brownfields inventory and public record, and conduct site assessments. EPA has awarded \$9.7 Million to Oregon State since 1997, including \$1.5 Million in 2009.
- In 2008, the State Response Program leveraged a \$20,000 contract with the State of Oregon's insurance broker for insurance archaeology work into \$3,000,000 in primary and excess liability coverage that may be available to pay for future site investigations and cleanup costs at three dry cleaner sites.

Targeted Brownfields Assessments

- EPA has performed a total of 21 Targeted Brownfields Assessments (TBA) on properties in the state of Oregon. A TBA is an EPA study that determines what type(s) of contamination are present at a site and do not exist at a site. A completed TBA can reduce uncertainty about site contamination.

Brownfields Assessment Grants

Medford Urban Renewal Agency

Project Contact: Jackie Rodgers, (541) 774-2705

Year of Funding: 2006

Metro of Portland

Project Contact: Miranda Bateschell, (503) 797-1817
